PROFILE

Aeronautical Engineering professional and Aircraft Maintenance Technician with experience in **aircraft maintenance, airworthiness, technical documentation, maintenance planning, and technical records**. Strong foundation in **aircraft design, systems, regulatory compliance, and maintenance operations**.

Complementary expertise in **software development, automation, AI, databases, and engineering technology**, enabling the integration of aviation and digital solutions.

EDUCATION

Bachelor of Engineering in Aeronautical Engineering The Technical University of Kenya 5 th July 2019 – 26 th November 2024 2 nd Class Honors – Upper Division	High School Education Kanga High School 11 th February 2015 – 23 rd November 2018 K.C.S.E. Grade A- (A minus)
--	---

INDUSTRIAL TRAININGS

Electrostatic Device Handling	Air Direct Connect Limited	June 2026
Battery maintenance (OJT)	Phoenix Aviation Limited	Nov 2026 – Dec 2026
Maintenance Procedures	Air Direct Connect Limited	July 2025 – Sept 2025
Aircraft Maintenance Production Planning and Control	Phoenix Aviation Limited	June 2025 - July 2025

PROFFESIONAL EXPERIENCE

Aircraft Maintenance Technician (Avionics) Air Direct Connect Limited (ADC): <i>Battery Shop Technician</i> <i>DHC 8 Classics (200, 100), CRJ 200, Bombardier Challenger 350, Fokker 70, Fokker 50</i>	October 2025 – Present J.K.I.A - AMSL Hangar
---	---

Junior IoT developer (Embedded systems) QuePay Limited: <i>Pilot phase implementation of IoT protocol (MQTT)</i>	September 2025 Part time - Nairobi
--	---------------------------------------

Aircraft Maintenance Internship Air Direct Connect Limited (ADC): <i>Aircraft Maintenance Planning & Technical Records, Wheels and Brakes Maintenance, Aircraft Maintenance (Boeing 737-300, DHC 8 – Q400)</i>	12 th August 2024 – July 2025 J.K.I.A - AMSL Hangar
--	---

Aircraft Maintenance Technician Attachment National Police Service: <i>Aircraft maintenance Mi-17V-5 Helicopters, Cessna Caravan 208B.</i>	3 rd May - 9 th August 2024 Wilson Airport (NPSAW Hangar, HeLint, NASD Hangar)
--	---

School Industrial-Based Training (Non-Destructive Inspection) Kenya Airways (KQ): (Workshop – NDT) <i>Eddy Current Testing, Liquid Penetrant Testing, Ultrasonic Inspection, Magnetic Particle testing</i>	12 th September 2023 JKIA (KQ Workshop-NDT)
---	---

TECHNICAL KNOWLEDGE & SKILLS

Engineering

Technical Services

- MSG3 Planning Doctrines
- Work Package Preparation and Review
- Aircraft Maintenance Planning
- Evaluation of Technical Documents (ADs &SBs)
- Aviation Legislation (KCARs)
- Maintenance and Operation Technical Records and Review

- Aircraft and Aircraft Systems Maintenance
- Automobile Enterprise Resource Planning

Computer Aided Design

- 3D Modelling [SolidWorks 2024, OnShape]
- Computational Fluid Dynamics Analysis [Ansys 2025]
- PCB Design [KiCad v9.0]
- Finite Element Analysis [Ansys Fluent 2025]

Maintenance

- Wheels and Brakes Repair and Overhaul
- Battery Servicing, Repair and Overhaul (NiCad & Lead Acid)

Software Development and Computer Skills

- | | |
|---------------------------------------|---|
| • Databases | PostgreSQL, MySQL, MongoDB |
| • Programming and Scripting Languages | JavaScript, Python, C#, C++ |
| • Backend Technologies | Flask, NodeJS (Express Js), Fast API |
| • Frontend Technologies | ReactJS, PyQT5, Vanilla JavaScript |
| • Scripting and Automation | Arduino & Raspberry 4+ (Using C++) |
| • Microsoft Technologies | Ms. Word, Ms. Excel, Ms. Publisher, Ms. Access database |
| • Artificial Intelligence | NLP and deep learning model development, AI API integration |

Workshop skills

- | | | |
|---|--|--------------------|
| Internal Industrial Based Learning II
(Technical University of Kenya): | <ul style="list-style-type: none">• Reverse Engineering and Rapid Prototyping• Programmable Logic Circuits• Computer Aided Design• Manufacture-Programmable Lathe Machining | June – August 2023 |
|---|--|--------------------|

- | | | |
|--|--|-------------------------|
| Internal Industrial Based Learning I
(Technical University of Kenya): | <ul style="list-style-type: none">• Welding, riveting structural metal-work• Basic Structural Fabrication• Analogue Lathe Machining• Circuit board design and Arduino Programming | September-December 2022 |
|--|--|-------------------------|

Soft Skills

- | | | |
|---|---|---|
| <ul style="list-style-type: none">• Adaptability• Time Management• Teamwork | <ul style="list-style-type: none">• Critical Thinking• Problem Solving | <ul style="list-style-type: none">• Creativity• Emotional Intelligence |
|---|---|---|

INDUSTRIAL PROJECTS AND PROFFESIONAL AFFILIATIONS

- | | |
|--|-------------------------|
| Royal Magic Automobiles (Software Design and Development) | February 2024 - Present |
| Maintenance and Updates for the Vehicle Maintenance and Facility Inventory Management system (for car spare parts, maintenance tools and facility Labor planning, assignment and update Processes) | |

- | | |
|---|--------------------------|
| AERIS Aviation Management Software (System Design and Development) | October 2025 – June 2026 |
| An Aviation Management System for Aviation Enterprises managing AOC, AMO and Integrated CAMO operations consisting of 13 modules common of which include; maintenance planning, work order management, Stores and Logistics management, Aircraft and components tracking and records management, Aircraft and Component Reliability Assessment. | |

LANGUAGES

- | | |
|-----------|---|
| Kiswahili | Fluent Listener, Fluent Speaker, Advanced reading and Writing |
| English | Fluent Listener, Fluent Speaker, Advanced reading and Writing |
